

N THE CLAIMS:

The text of all pending claims, (including withdrawn claims) is set forth below. Cancelled and not entered claims are indicated with claim number and status only. The claims as listed below show added text with underlining and deleted text with ~~striketrough~~. The status of each claim is indicated with one of (original), (currently amended), (cancelled), (withdrawn), (new), (previously presented), or (not entered).

Please Amend claims 1-3 and ADD new claims 4 -7 in accordance with the following:

1. **(Currently Amended)** A recording medium with respect to which data is transferred by a recording/reproducing apparatus, the medium, comprising:

at least one still picture;

at least one still picture group information used by the apparatus for arranging the still pictures into a number of groups, the still picture group information including a first virtual deletion information corresponding to the one still picture used by the apparatus for virtually deleting the still picture; and

at least one additional audio group information used by the apparatus for arranging at least one additional audio parts into a number of groups, the additional audio group information including second virtual deletion information used by the apparatus for virtually deleting the one or more of the additional audio parts,

wherein the one additional audio group information includes additional audio group general information containing a start position of an additional audio group.

2. **(Currently Amended)** The recording medium of claim 1, wherein, if at least one still picture is set to a virtual deletion state, the apparatus determines that the one still picture and a corresponding additional audio part is not to be reproduced.

3. **(Currently Amended)** The recording medium of claim 1, wherein, if at least one still picture is not set to a virtual deletion state and a corresponding additional audio is set to the virtual delete state, the apparatus determines that the additional audio part corresponding to the one still picture is not to be reproduced.

4. **(New)** The recording medium of claim 2, wherein, if the at least one still picture is

removed from the virtual deletion state, the apparatus determines that the one still picture and the corresponding additional audio part is to be reproduced.

5. **(New)** The recording medium of claim 3, wherein, if the corresponding additional audio is removed from the virtual deletion state, the apparatus determines that the corresponding additional audio part is to be reproduced.

6. **(New)** The recording medium of claim 1, wherein, if all of the still pictures are set to a virtual deletion state, the apparatus determines that all of the still pictures and the corresponding additional audio parts are to be actually deleted.

7. **(New)** The recording medium of claim 1, wherein, if all of the corresponding additional audio parts are set to a virtual deletion state, the apparatus determines that all of the corresponding additional audio parts are to be actually deleted.
